

PROFESSIONAL SCRUM FOUNDATIONS

TRAINING COURSE

COURSE SUMMARY

Professional Scrum Foundations is a 2-day course that provides the foundational knowledge needed to work with Scrum in a highly practical way. The course is a combination of instruction and team-based exercises where students experience how the Scrum framework improves product development efforts. The course also includes a free attempt at the globally recognized Professional Scrum Master I certification exam (PSM I).

Over the 2 days, students are introduced to the mechanics of Scrum, gaining insights into overcoming complexity, dealing with team based collaboration and self-organization as essential elements in mastering Scrum. Students work together as a team in a series of Sprints to build a software application, thereby facing real-life problems. The mechanics, roles, and principles of Scrum are leveraged during the exercises.

WHO SHOULD ATTEND

Professional Scrum Foundations is excellent training for teams and anyone wanting to experience the way of working in Scrum. The course also provides the foundation of knowledge needed for role-focused training for Product Owners, Scrum Masters, Developers, and Leaders within the organization.
