

PROFESSIONAL SCRUM PRODUCT OWNER TRAINING COURSE

COURSE SUMMARY

The **Professional Scrum Product Owner Workshop** is a 15-hour training course that covers the principles of Scrum and agility, the role of the Product Owner, building and sustaining a product vision, and managing a Product Backlog. The workshop dives deep into the role of the Product Owner, going beyond simple product backlog management.

WHO SHOULD ATTEND

This workshop will be most useful to individuals who are in the role of Product Owner for a Scrum Team. It is ideal for Product Owners who are new to the role, those Product Owners needing a refresher, and the business analysts, subject matter experts and managers in the organization who need to understand the Product Owner role.

COURSE OUTLINE

- Scrum Review – The WHYs
- The Role of the Product Owner
- Growing and Realizing the Product Vision
- Managing the Product Backlog
- Planning Releases
- PO Patterns and Anti-Patterns
- Getting Started

KEY LEARNING OUTCOMES:

Following this training, participants will be able to:

1. Quantify value to validate product vision
2. Introduce Lean Startup concepts, including MVPs, MMPs, and Hypothesis-Driven Development
3. Evaluate portfolio options – TCO, ROI, etc.
4. Effectively manage Product Backlogs
5. Forecast product releases

ASSESSMENT & CERTIFICATION

- Up to 25 people may attend the training
- The Professional Scrum Product Owner Workshop prepares attendees for Scrum.org's **Professional Scrum Product Owner Level I (PSPO I)** and **Professional Scrum Product Owner Level II (PSPO II)** certifications.
- These industry recognized certifications require a minimum passing score on their associated assessments (not included in this course)
- Scrum.org maintains a public list of everyone holding the PSPO I and PSPO II credentials.
